# Our chat: we again must move it

Reason: Mattermost changed conditions and now free version is limited to 30 users.  
Not enough even for Tango Controls itself.

New chat is Matrix:

<https://matrix.helmholtz.cloud/#/room/#tango-controls:helmholtz.cloud>

Looks and feels almost the same as Slack/Mattermost/etc....

# How to access Matrix

→ If you already have access to matrix through your home organization or any other matrix host, please join:

`#tango-controls:helmholtz.cloud` (direct access to tango matrix space)

→ If you haven't used matrix before and you want to use matrix through Helmholtz (same SSO as for mattermost) please request access via
